**3rd Quarter Newsletter  
CCR REPORTING  
10/26 /2022**

**Mandatory Water Notice:**

Please make sure to read the water and chlorine notice. Our fluoride levels are a little high, therefore, we should take some precautions. The City is doing its best to contain these levels.

The Texas Commission on Environmental Quality (TCEQ) has notified the City of Ropesville water system that the drinking water being supplied to customers had exceeded the Maximum Contamination Level (MCL) for fluoride. The U.S. Environmental Protection Agency (U.S. EPA) has established the MCL for fluoride at 4.0 milligrams per liter (mg/L) based on running annual average (RAA), and has determined that it is a health concern at levels above the MCL. Analysis of drinking water in your community for fluoride indicates a compliance value in quarter three 2022 of 4.9 mg/L for EP001.

This is not an emergency. However, some people who drink water containing fluoride in excess of the MCL over many years could get bone disease, including pain and tenderness of the bones. Fluoride in drinking water at half the MCL or more may cause mottling of children’s teeth, usually in children less than nine years old. Mottling, also known as dental fluorosis, may include brown staining and/or pitting of the teeth, and occurs only in developing teeth before they erupt from the gums.

An alternate source of water should be provided to the affected population, which consists of children less than nine years old. The alternate water should be used for drinking and cooking only. However, if you have health concerns, you may want to talk to your doctor to get more information about how this may affect you.

We are taking the following actions to address this issue:

1. Sending notice to public by mail.
2. Posting public notice in the City Office.
3. Adjusting chlorine levels & monitor.
4. Providing reverse osmosis water system at the City Office to be used by affected population.
5. Completed feasibility study with Parkhill Smith & Cooper.
6. Working on EDR System

If you have questions regarding this matter you may contact CITY HALL at (806) 562-3531.
